Subject: Street Closure
Attachments: WSS Map.docx

Mayor Nelson,

I am writing to inform you and the White Sulphur Springs city council that the Montana Dept. of Transportation plans to construct a new facility at the current location located on 705 3rd Ave SW. MDT owns the property at this location that is currently separated by 5th Ave SW. As part of this project MDT would like to request a permanent through traffic street closure of 5th Ave SW between the streets of SW Hancock St and SW Garfield St. The request comes for safety concerns due to the heavy equipment operation in the area and to avoid the public from entering a dangerous situation with MDT operations. With your approval MDT would like to tie the fence ends together at this location eliminating access through MDT's maintenance yard. City access would not be restricted if the need for public services or infrastructure maintenance is required. I have attached a map for your review. Please give me a call if you need more information.

Thank You for your consideration.

Sincerely

Ted Jones
